

RAMS Insulation

Rams Insulation thermal wool range will fight against condensation, unlike man-made materials. When wool absorbs moisture it actually emits energy which warms the wool and prevents condensation. Rams Insulation is manufactured to comply with AS/NZS_4859.1.

R-Type: Recycled Wool Yarn Blend-Thermal Insulation

Available in batts suitable for ceilings, walls and floors. This product is made using **recycled wool yarn** mixed with low-melt polyester, thermally bonded.
